Summary

I'm using Swift and SwiftUI, Unit tests, Integration Tests, Leak Tests, TDD, ARC and memory management, offline storage (Core Data, User Defaults, Keychain Access, SQLite and Property List), 3rd party libraries (usually marketing and analytics), threading and performance tuning in Web Services, Network Caching, Error Handling, App Groups, Generics, Widgets(iOS 14+ SwiftUI), Modern Networking Layers(Async/Await), experience integrating with RESTful API backends, also, understanding of Apple's design principles and interface guidelines, familiarity with cloud messaging APIs and push notifications, Apple Frameworks, Core Animation, etc. MVVM, MVC, MVP, VIPER, Coordinator and Router.

I was born in 1999. I completed my compulsory military service. I took part in speeches on behalf of many companies in the Swift field.

Experience

Arçelik

iOS Developer

Arçelik Global

Sep 2023 - Present (7 months)

-HomeWhiz (IoT mobile app) [Swift 5 & MVVM] - iOS dev

<https://www.homewhiz.com>

<https://apps.apple.com/tr/app/homewhiz/id1234028528?l=tr>

iOS Developer

Softtech

Aug 2021 - Sep 2023 (2 years 2 months)

iOS development team member (scrum)

Projects:

-İşCep (Türkiye İş Bankası A.Ş. online banking application) [Swift - Objc] Over than 1.5M comments with a 4.6 star.
